

Data Advisory Committee Meeting

8/5/2020

8/5/2020 1:00pm-2:00pm

Notes:

Introductions

I. ACT Reporting Updates

- ACT quarterly reporting is no longer suspended as of July 1st, 2020. Quarter 3 data will be due as usual on Nov. 14th 2020
- Quarter 1 & 2 will remain open for data entry if teams would like to keep their database updated.

II. OAD Referrals

- Inquiries as to how up to date the referrals are in OAD or if teams enter data only at the end of the quarter.

III. Data Collection for Quality Assurance Assessments

- Review posted excel datasheet "QA data collection form" to view what data will be needed for the QA's.
- OCEACT will fill in the form with as much data as is available in OAD a month prior to the review and then ACT teams will be requested to finish updating and editing the form prior to the QA.
 - The main difference from how we did the fidelity datasheet is that the hospitalizations and incarceration data will only be requested for the last 3 months instead of the last 12 months.
 - One thing that we clarified for the QA form, if someone has a substance use diagnosis but they have been in remission for the last year and are not receiving services for this any longer, then please report "no" that they have a substance use dx in the QA datasheet form.

IV. Team check-ins & questions

Next Meeting November 4th, 2020 at 1:00 – 2:30 pm
